

## PureCycle Clean

### Subsurface Irrigation Water Filtration

*Removes solids and prepares water for subsurface irrigation, improving system performance and reducing maintenance*

**PC CLEAN  
10**

**10 GPM**

- 5 Micron Filtration
- 125 PSI Max. Pressure
- 4" Bag Filter

**PC CLEAN  
20**

**20 GPM**

- 5 Micron Filtration
- 125 PSI Max. Pressure
- 4" Bag Filter

**PC CLEAN  
30**

**30 GPM**

- 5 Micron Filtration
- 125 PSI Max. Pressure
- 4" Bag Filter

## PureCycle Flow

Collection & Transfer  
for Water Reuse

*Collects, conditions, and pumps treated water for reuse with VFD control and BAS integration for commercial application*

**PC FLOW  
30**

**30 GPM**

- 0.02 Micron Filtration
- 70 PSI Max. Pressure
- Self Cleaning
- Min. 40 mJ cm<sup>2</sup> Dosage
- 6" Filter

**PC FLOW  
50**

**50 GPM**

- 0.02 Micron Filtration
- 70 PSI Max. Pressure
- Self Cleaning
- Min. 40 mJ cm<sup>2</sup> Dosage
- 6" Filter

## PureCycle +

### High-Capacity Irrigation Water Filtration System

*Ultra-filtration for high-demand irrigation applications - built for full code compliance*
